Can any one tell me if there's a website containing history about the Daytona 500, including all the winners, track records, and interesting trivia about the event? I did a quick search on <http://www.google.com> for Daytona 500 history. Here is the best site I turned up. It does not answer all your questions. http://www.speedfx.com/history/012098daytona_beach4.shtml The history of NASCAR seems to be hard to come by on the internet.
